

HANDMADE WOODWIND INNOVATIONS

Drake Mouthpieces combines state of the art technology with hand finishing tradition to create precision crafted Woodwind accessories

DRAKE CERAMIC MOUTHPIECES

Since 1990 Aaron Drake has developed these remarkable handmade mouthpieces. Drake Mouthpieces is proud to be the inventor and originator of this amazing material.

DRAKE VINTAGE RESIN

This special formulated material offers amazing clarity of response, incredible intonation stability, and outstanding projection qualities.

DRAKE METAL MOUTHPIECES

This latest addition to our product line up represents a culmination of our most innovative acoustic designs. These mouthpieces are made from a special high density alloy that contributes a broad, "Fat" timbre to the tone quality.

**NEW YORK
JAZZ ALTO**

THE WORLDS FIRST Ceramic chamber mouthpieces

The exposed ceramic chamber contributes unique density properties and produces a strong core fundamental tone color, with a deep richness in the vibration of the air column.

**"SON OF SLANT"
JAZZ TENOR**

Available in Medium and Large Chambers
